Work Experience

Campus (campusapp.ru)

Jul 2025 – Present

Backend Engineer

Russia, Remote

- **Led development** of "Custom Events" feature from concept to production, dramatically improving retention for users without university schedules: 2nd-day retention **increased from 8% to 24%** and 7th-day retention **from 3% to 13%**
- Engineered comprehensive admin panel for managing advertising campaigns, **replacing database-level operations with intuitive UI**, enabling marketing team to independently create and manage **50+ campaigns per month**, reducing campaign deployment time **from hours to minutes**
- Implemented observability infrastructure with **Grafana, Prometheus, and AlertManager** for real-time monitoring of backend services. **Reduced mean time to detection (MTTD) by 80% (from 5 minutes to 1 minute)** and overall downtime by proactively identifying resource leaks and performance degradation across **22 microservices**

Sveak LTD.

Jun 2024 – Jul 2025

Full-stack Engineer

Russia, Barnaul

- Migrated **30+** legacy complex Ember.js pages to **Next.js**, reducing technical debt and unifying the codebase with a modern React-based stack while maintaining **99% pixel-perfect** parity between user interfaces
- Integrated ChatGPT into customer support chat with context-feeding and automated fallback routing to human agents for out-of-scope queries, reducing average response time from minutes to **less than 5 seconds**
- Implemented **SSR/CSR** hybrid patterns in **Next.js** that improved initial page load time **by 53% (from 3.2s to 1.7s)** and reduced bundle size **by 36%**, achieving better performance and scalability under high-load traffic conditions with **100,000+ DAU**

leans.fun

Sep 2024 – Sep 2025

Chief Technology Officer

Remote

- **Fully designed** the architecture and UI/UX of the project, and developed the web application using **TypeScript** and **Next.js** as a solo developer
- Created a custom error logging and uptime monitoring systems with real-time notifications via Discord webhook, **reducing mean time to detection (MTTD) from several hours to less than 3 minutes**
- Engineered a rate-limiting system that mitigated activity bursts and **prevented abuse from 96%** of malicious actors and bots by automatically identifying and blacklisting suspicious IP addresses
- Implemented a CI/CD pipeline with automated testing and deployment, eliminating manual processes and **reducing release times by 73% (from 15 minutes to 4 minutes)**

Leadership Experience

Chief Technology Officer, leans.fun | SaaS

Sep 2024 – Sep 2025

- Built and launched the product end-to-end as solo developer, defined and executed go-to-market strategy, growing to **200+** users and **15+** paid users, founded and led a **200+** member community across social platforms

Team Lead, CareerAI | Hackathon Project

May 2025

- Led a team of developers to build an AI-powered job search assistant at a 48-hour hackathon, aggregating **5000+** job listings and delivering NLP-based CV-to-job matching and skill-gap analysis as a functional MVP

Team Lead, Sippy | Hackathon Project | Startup Accelerator Project

May 2024 – Dec 2024

- Led a team of 5 through a Hackathon and of 10 through a startup accelerator to build a social companion app, personally developing the iOS MVP in 48 hours using Swift and SwiftUI, and pitching to investors

Projects

sychrone | Advanced "Web Technologies" coursework project

Jan 2025 – May 2025

- Built a full-stack real-time collaborative code editor with syntax highlighting, enabling seamless multi-user code editing and auto-save mechanism

Technical Skills

Languages: JavaScript, TypeScript, Python, SQL, HTML, CSS

Libraries/Frameworks: React, Next.js, Astro, Node.js, Bun, Express, NestJS, Hono, Prisma, PostgreSQL, MongoDB, Redis, RabbitMQ, Websockets

Developer Tools: Postman, Git, Linux, Docker, AWS, Cloudflare, Grafana, Prometheus

English - C1 (Advanced), **Russian** - Native

Education

Polzunov Altai State Technical University

Sep 2022 - June 2026

Bachelor of Computer Science and Engineering
